

Are you ready to join an inclusive workplace that values diversity and collaboration? Windlab is hiring and we want you to join our team.

EXPRESSION OF INTEREST - Wind Turbine Installation and Commissioning Engineers.

The position is a project role for 2 years and is a FIFO site-based role from Brisbane to remote northern Queensland on a 10:4 roster.

About Us

Our organisational culture is central to our success, and our pillars of character drive everything we do:

- **Speak up** - Make a difference. The biggest challenge humanity faces need big brains, big voices, and fresh perspectives.
- **Respect expertise** - Listen and learn, always. Ability trumps hierarchy. Share smarts and contribute. **Prove it** - Science and business do not progress on assumptions. The problems we are solving deserve robust justification. –
- **Collaborate** -Our skills mix is our superpower. Democratise knowledge, multiply capacity.

Windlab is the 100% Australian global renewable energy company championing the nation's clean energy transition.

We exist to go big on renewables. Fully integrated across the entire renewable energy value chain, Windlab uses world-leading science to find, construct and operate Australia's top-performing renewable energy projects. With almost 24GW currently in development or under construction, and our sights set on our five-year 10GW plan, Windlab has the science, skills and the financial backing required to deliver our ambitious pipeline and **make fossil fuels obsolete**.

About the Role

The Wind Turbine Installation & Commissioning Engineer is accountable to the Site Manager for the supervision of Windlab's project wind turbine installation and on-site logistics operations. You will be a safety leader by working to Windlab's safety management system and encouraging your co-workers to do the same. You will promote and develop Windlab's reputation as a leader in the field of wind energy analysis, development, and operations.

Contribute to innovation and improvement of the wider Windlab group.

Who we are looking for!

As a key member of the construction project team, you will have extensive experience in Wind Turbine installation and knowledge of cranes and lifting operations.

Qualifications Required

- Qualifications in an electrical or mechanical trade
- Tertiary qualifications in a related technical field
- OHS Construction White Card
- WHS Supervisor Training (HIRAC – Risk Management)
- First Aid
- Working at Heights
- Certificate in Project management
- EH&S and quality systems
- HV Switching operation
- Drivers Licence
- OEM training in assembly of wind turbines
- Apply ESI safety rules codes of practices and procedures for work on or near electrical apparatus – UETDRRF01B
- Apply access procedures to work on or near electrical network infrastructure – UETDRRF01B (operator course)
- Lift Use Training
- Confine Small Workplace Emergencies - PAUWER008B
- Defensive Driver Training
- Provide First Aid in ESI Environment (HV Operators)
- Perform rescue from a live LV Panel
- Undertake Vehicle Rescue

You will be team-oriented and dedicated to delivering excellence. With outstanding communication skills and the ability to collaborate with diverse stakeholders, you will thrive in this role. Get brand awareness and take your passion for renewable energy to the next level!

Your inclusive approach along with your exceptional coaching and mentoring skills will help create a highly effective team.

We are looking for someone who can make a real impact.

Windlab's construction team combines global experience, local knowledge with a strong industry reputation to execute the delivery of our transformational portfolio of clean energy projects safely, responsibly, on time and within budget. Our sole focus on renewables, combined with the rich and diverse experience of our Construction team offers unparalleled construction experience and the nuanced insight that only a dedicated, fully integrated renewable energy company can offer.

Don't miss this chance to be part of a vibrant and forward-thinking team! We can't wait to welcome our newest team member. Apply now!

Click [HERE](#) to apply

- Interviews will commence early to June 2024
- Applicants are encouraged to apply at their earliest convenience. Windlab will remove this advertisement if the position is filled.

- Successful applicants must be eligible to work in Australia and agree to provide information for pre-employment checks if required for the position (which may include police record checks).

We are proud to be recognised as an employer of choice for women by WORK180

We are a 2024 Circle Back Initiative Employer – we commit to respond to every applicant

At Windlab we value the expertise and experience that each individual brings to our workplace. If there is a better way, a fresh perspective, or a counterpoint then we want to hear about it. We like to share knowledge, test thinking, bring the community into the process and ultimately multiply capability. We are looking for people from all backgrounds to join our team and help us make renewable energy cheaper, easier, and more reliable. We encourage people from diverse backgrounds including women, Aboriginal and Torres Strait Islanders, people of all backgrounds, ages, sexual orientation, and those with disabilities to apply.
