

Are you ready to join an inclusive workplace that values diversity and collaboration? Windlab is hiring and we want you to join our team.

We are currently accepting **Expressions of Interest** for upcoming exciting opportunities for a site based Commissioning Engineer and Manager. The positions will be fixed term site based, with a FIFO roster of 10:4.

About Us

Our organisational culture is central to our success, and our pillars of character drive everything we do:

- **Speak up** - Make a difference. The biggest challenge humanity faces need big brains, big voices, and fresh perspectives.
- **Respect expertise** - Listen and learn, always. Ability trumps hierarchy. Share smarts and contribute. **Prove it** - Science and business do not progress on assumptions. The problems we are solving deserve robust justification. –
- **Collaborate** -Our skills mix is our superpower. Democratise knowledge, multiply capacity.

Windlab is the 100% Australian global renewable energy company championing the nation's clean energy transition.

Windlab's construction team combines global experience, local knowledge with a strong industry reputation to execute the delivery of our transformational portfolio of clean energy projects safely, responsibly, on time and within budget. Our sole focus on renewables, combined with the rich and diverse experience of our Construction team offers unparalleled construction experience and the nuanced insight that only a dedicated, fully integrated renewable energy company can offer.

Who we are looking for!

A renewable energy enthusiast looking to make a difference. You will be a team-oriented individual who is dedicated to delivering excellence. With outstanding communication skills and the ability to collaborate with diverse stakeholders, you will thrive in this role. Get brand awareness and take your passion for renewable energy to the next level!

We are looking for experienced Commissioning Engineers and Managers who have advanced understanding of commissioning procedures and processes of a power plant, along with the following skills/experience:

- Experience in reading IFC drawings and P&IDs, SLD's and other system configuration diagrams.
- Detailed understanding HSE regulations and construction standards and the value of an early risk identification and preventative action approach
- Good understanding commercial terms and key business drivers involved on EPC and EPCM projects.
- Ability to review/develop and communicate appropriate project strategies to overcome project/commissioning challenges on site.

Don't miss this chance to be part of a vibrant and forward-thinking team! We can't wait to welcome our newest team member. Apply now!

- Applicants are encouraged to apply at their earliest convenience. Windlab will remove this advertisement if the position is filled.
- Successful applicants must be eligible to work in Australia and agree to provide information for pre-employment checks if required for the position (which may include police record checks).

We are proud to be recognised as an employer of choice for women by WORK180

We are a 2024 Circle Back Initiative Employer – we commit to respond to every applicant

At Windlab we value the expertise and experience that each individual brings to our workplace. If there is a better way, a fresh perspective, or a counterpoint then we want to hear about it. We like to share knowledge, test thinking, bring the community into the process and ultimately multiply capability. We are looking for people from all backgrounds to join our team and help us make renewable energy cheaper, easier, and more reliable. We encourage people from diverse backgrounds including women, Aboriginal and Torres Strait Islanders, people of all backgrounds, ages, sexual orientation, and those with disabilities to apply.
