

Looking for a new opportunity in the renewable energy industry?

Join Windlab's construction team and play a pivotal role in delivering Gawara Baya, leading-practice wind energy project located near Mount Fox, 65km south-west of Ingham, and 180km north-west of Townsville.

Gawara Baya will be the first renewable energy project in Australia to be delivered with a robust and measurable program for achieving a net-gain for regional biodiversity.

The project will create around 300 construction jobs, and inject more than \$200 million into the regional economy through local employment, supply and contracting opportunities.

Gawara Baya is an early-transition, large-scale generation opportunity that can be grid connected via existing transmission infrastructure and producing 400MW of low-cost clean energy for Queensland homes and businesses by 2027.

Development of Gawara Baya is nearing the construction phase, with early works underway.

About the Role

As a member of the project leadership team, you will assume responsibility for managing various design and construction subcontracts using a split contract model. Additionally, as the Project Manager you will oversee and provide leadership for core project management tasks, ensuring effective coordination, control and reporting of the project progress.

Windlab's construction team combines global experience, local knowledge with a strong industry reputation to execute the delivery of our portfolio of clean energy projects safely, responsibly, on time and within budget.

Our sole focus on renewables, combined with the rich and diverse experience of our Construction team offers unparalleled construction experience and the nuanced insight that only a dedicated, fully integrated renewable energy company can offer.

You'll wear multiple hats in a rewarding career in a team that blends contractor management, health and safety, environment management, compliance, stakeholder engagement and more.

Who we are looking for!

As a seasoned project management professional with experience in large scale renewable energy projects, you understand the importance of collaboration and team dedication. Your technical understanding of the electrical industry and commercial contract management makes you a key member of any construction project team.

Your outstanding communication skills and ability to work with diverse stakeholders ensure project excellence. If you're passionate about renewable energy, this is the opportunity to take your career to the next level. Join our team and help us promote brand awareness.

Skills/Experience

- A minimum of 7 years Project Management experience in delivering complex projects ideally within the renewable energy sector, Windfarm's preferred.
- Experience in managing complex major contracts, variation and extension of time claims
- Ability to lead a successful construction team.
- Extensive experience in representing the Principal or the EPC Contractor.

Don't miss out on the opportunity to be part of the dynamic multi-disciplinary.

This is a 3 year fixed term contract.

- Applicants are encouraged to apply at their earliest convenience. Windlab will remove this advertisement if the position is filled.
- Successful applicants must be eligible to work in Australia and agree to provide information for pre-employment checks if required for the position (which may include police record checks).

We are proud to be recognised as an employer of choice for women by WORK180

We are a 2024 Circle Back Initiative Employer – we commit to respond to every applicant

Strictly No agencies

At Windlab we value the expertise and experience that each individual brings to our workplace. If there is a better way, a fresh perspective, or a counterpoint then we want to hear about it. We like to share knowledge, test thinking, bring the community into the process and ultimately multiply capability. We are looking for people from all backgrounds to join our team and help us make renewable energy cheaper, easier, and more reliable. We encourage people from diverse backgrounds including women, Aboriginal and Torres Strait Islanders, people of all backgrounds, ages, sexual orientation, and those with disabilities to apply.
